Facebook: Geofrey Gam

Summary:

Highly motivated and detailed-oriented Data scientist with 2years of experience in data analysis, data visualization, ML and DL. Proficiency in working with large datasets and creating data driven solutions

Technical skills:

- Programing languages: python
- Data science tools: Pandas, Numpy
- Data visualization tools: matplotlib, seaborn and plotly
- ML Algorithms: Have worked with KNN and linear regression models
- Deep Learning tools: Tensorflow, Deep neural networks, keras

Professional experience:

- Data scientist intern at Traitz Tech, Bamenda, 1st of march to the 2nd of April 2025
    - Analyze large datasets to identify trends and patterns, created data visualization to communicate findings to stakeholders.
    - Collaborate with cross-functional team to design and implement data-driven solutions.
- Machine Learning intern, Traitz Tech CO.ltd 2nd August to 2nd October 2025
    - Built a house price prediction model
    - Built a blood glucose level prediction model
    - Built a model to predict student score
    - Built a model to detect money bank notes
- DL intern at Traitz Tech, 2nd September 2025

- Built a model to detect handwritten characters
- Built model to predict disease in plant

Language:

- Proficiency in English
- Understand and speak French (Basics)

Education:

- **Bachelor of Technology(Data science)**
  - From September 2024 to September 2027
  - **College Of Technology**
  - Bamenda, Cameroon
- **Advance level certificates in science**
  - 5 subjects (Computer science, Pure maths with mechanics, Physics, chemistry, Biology)
- **Ordinary level certificates in science**
  - **10 subjects**
